She shared her domain knowledge of teens and how the use of drugs may turn into addiction when they become adults. She said the drugs most commonly used by young people are alcohol, tobacco, and nicotine. Statistics show that drug abuse is a growing problem among teens. An overdose might lead to a coma or even death, so students were advised to stay away from drug usage.

At the end of the lecture, there were a variety of performances like Bharatanatyam, singing, speech, and mime.

Ms. Anusha Sri J, IIIrd year CSE, delivered the vote of thanks.
